**One Of The Violations Most Quickly Noticed By An OSHA Inspector
Is The Failure To Sign, Label Or Mark A Regulated Situation!**

Now You Can Find Out About Signing, Labeling And Marking Your Facility In ...

Keller's New, Illustrated OSHA Facilities Marking Manual!
(2 FREE Bonuses Just For Responding!)

Dear Keller Customer:

If OSHA inspectors walk into your facility, they're going to very quickly notice if you have signs, labels or placards posted for regulated industrial workplace situations.

To be in compliance, you need to know which industrial situations require signing, labeling or marking -- and the signs, labels or placards that must be used.

Doing this isn't easy because OSHA only tells you what you must do -- not how to do it. And ... the job is made more difficult by the continuing regulatory changes brought by new materials, chemicals and workplace situations.

But now there's a simple, convenient, affordable way to learn how to sign, label and mark common industrial workplace situations. A way that can help you easily comply with OSHA's requirements for such areas as loading docks, maintenance shops, spray booths, and compressed gas storage rooms.

*Introducing ... Keller's New OSHA Facilities Marking Manual
To Help Make Signing, Labeling And Marking Compliance Easier!*

Keller's new *OSHA Facilities Marking Manual* is a "how-to" publication containing color illustrations and clear regulatory explanations of

(over, please ...)

signing, labeling and marking requirements for key industrial situations, including:

- Loading dock areas
 - carbon monoxide
 - clearance limits
 - exits
- Warehouse areas
 - aisles
 - ladders
 - physical hazards
- Welding areas
 - acetylene
 - welding rods
 - air emissions

Here's How Keller Gives You Quality Plus Savings!

What's more, we don't just tell you what signs, labels and markings to use. We show you ... with full color drawings of typical workplaces with all signs in place. (See example in enclosed brochure.) Just follow these quick reference drawings for quick, easy, reliable compliance.

Quality, Savings ... and Two FREE Bonuses!

With Keller, compliance won't bankrupt your budget. In 38 years of compliance book publishing ... a field we virtually invented ... we've learned how to provide quality and technically accurate information at prices our competitors can't believe. Forget about paying up to \$300 for an OSHA compliance book! The NEW Keller Marking Manual is yours for only \$75! Plus you get a FREE one year Update Service (a \$60 value) and 3 FREE months of our Industrial Safety Report monthly newsletter (a \$22.50 value)!

Quality, low price, FREE bonuses. It's no wonder that more than 117,000 companies have turned to Keller to comply with OSHA and other key regulations. Join them. Call 1-800-327-6868 or return the enclosed card to order your OSHA Facilities Marking Manual today!
