

Two of the three reasons to buy a Parker Duofold this holiday season.

Complimentary Monogram

Complimentary Leather Pen Case

And here's the third: Simply, the sheer *delight* of writing with a Parker Duofold—the most magnificently crafted fountain pen in the world. Consider the Duofold's outstanding features:

- An 18-karat gold nib tipped with ruthenium—four times harder than steel and yet it writes as smooth as silk.
- An advanced ink flow governor that prevents leaking—even in a pressurized aircraft cabin.
- Convenient filling from a bottle with a piston converter. Or with a cartridge that features a tap-tank ink reserve—unique to Parker—which provides early warning before refilling is required.

• And an invitation to join Parker's **Platinum Club**, which extends exclusive privileges and complimentary services to Duofold owners.

The Parker Duofold can give your handwriting a distinctive character, style and flair. And a Parker Duofold with a pen case and your monogram gives you a writing instrument that is distinctly yours.

NOTE: To be monogrammed and returned in time for Christmas, Duofold pens must be sent so they arrive at Parker no later than December 5, 1989.
