

Landing Page Sample — eChalk

## Expect more.

Take your Web site to the next level.

Is your district fully realizing the potential of its Web sites? Learn how Web sites can be more than an information exchange by bringing administrators, teachers, students, parents and community members together -- in a single system -- to positively impact student success.

Please join us on **September 26th at 3:00 PM EDT** for a special opportunity to learn from two highly experienced educators about what you should expect from your Web site.

### Register for this FREE, Web-based meeting, during which you'll get the answers to these questions:

- » What are the big-picture considerations of an effective school Web site?
- » What should an effective Web site do for our district?
- » What are the tools that stakeholders will want (even if they don't know to ask for them now)?
- » How can a Web site positively impact instruction and learning?
- » What's needed to develop an effective community outreach program?

### Noelle Kreider

Noelle has served as Rialto Unified School District's (CA) Technology Integration Coach for the past 11 years. A former teacher, Noelle has written and coordinated several technology grants for the district and secured the EETT funding that first brought eChalk to Rialto, which has helped to improve parent – teacher communications and provided teachers with timely access to circular materials.

### Mona Huff

A former Math teacher, Mona was most recently the Director of Technology with Edgemont Schools (NY) until her retirement in 2006. Previously, Mona held the same position at Tarrytown School District, served as a professional development instructor with the Scarsdale Teachers Institute and was an Adjunct Instructor with Pace University. Mona also served as the President of the New York State Association for Computers and Technology in Education.
